★★★★ Energy under your control

• **STANDARD FEATURE** •
NO MORE RISK OF
RUNNING OUT OF FUEL!

The electronic gauge measures the volume available in your tank, informs Dyneff when it reaches a certain level (agreed with you)... and we call you to arrange delivery.

• **STANDARD FEATURES:**

- ① Single skin or bunded **metal tank** ****
 - ② **Pump delivering** 45l/min (light vehicles) or 95l/min (HGV)
 - ③ **Hose** - 7m (light vehicles) or 10m (HGV) with mechanical meter
 - ④ **Auto nozzle**
 - ⑤ **Gauge** (to see the level in the tank)
 - ⑥ **Filter cartridge** with replacement filter
 - ⑦ **Lockable facility** (2,000 to 10,000 litres)
 - ⑧ **Overflow protection** 1m30 off the ground for 6,000 – 10,000 litre single skin
 - ⑨ **Anti-syphon security device** (6,000 to 10,000 litres)
- Winding hose reel (depending on site)

• **OPTIONAL FEATURES:**

- Electronic meter with printer

* except weekends, public holidays and circumstances beyond our control (eg. weather conditions, driving ban on trucks)
** DRIRE: French government authority ("Directions Régionales de l'Industrie, de la Recherche et de l'Environnement"). *** except accessories (hose, nozzle and filter cartridges). **** Bunded tanks available for a capacity of 2,000 litres or more

A FUTURE CHOICE: BUY THE EQUIPMENT FOR 1 EURO AFTER 10 YEARS
