

Flexi Service

Optimal efficiency

FUELS AND SERVICES

Flexi Service

As clients can have very specific needs, we are also able to offer a totally personalised service. Based on a detailed analysis of your needs and your site, Dyneff will provide a tailored solution to optimise your fuel resources.

● Energy at your convenience

- No trips to or queuing at petrol stations
- Your fuel is **available 24 hours a day, 365 days a year**
- **Simple** to use
- **Easy to monitor** your fuel consumption
- Billing per delivery and with **different payment options**
- Your deliveries are:
 - timetabled **according to your needs**
 - within **48 hours** *
 - **priority** (in the event of disruption)

● Help with your capital investment

According to your annual fuel consumption and the characteristics of your site, Dyneff can take charge of part or all of your investment in your fuel storage. **

- **You already have a storage facility**, but would like to modernize it, bring it up to latest standards or computerize your system.
- **You have no storage facility** and you are interested in a tailored installation in line with your needs.

● Our commitments

- **Needs analysis:** we carry out an audit of your site and analyse how we can best meet your needs
- **Advice:** we advise you on the most suitable solution
- **Economic study:** carried out by our expert partners
- **Contribution:** financing of part or all of the equipment installed

... all of which fully complies with **current legislation**.

● Yet more savings

Become the owner of the equipment in 5 years for €1

* except weekends, public holidays and circumstances beyond our control (eg: weather conditions, driving ban on trucks)
** except civil engineering. See terms and conditions. Visuals are for illustrative purposes only.

ENERGY IS OUR FUTURE. SAVE IT.
